This is a copy of the main database to put your inactive or simi active folks in for the year. You can put them all in the main database file but this way the main database file will only have your boys that are earning merits and it will allow merit record keeping easier. For example in one years time I have about 50 people who are not really active in Rangers except for one event - Pow Wow so I keep them in this file so they are not in the main records database but I still can import them with a couple of easy clicks. The name of this file is RRSomeTimes. You can see the name of the file at the top left of the screen.

The Matching Game. Use stuff you want to teach your Rangers. Just print off the cards you want. You should have 2 of each card then mix them up and lay them face down and see if the boys can find the match. Each boy gets a turn to find a match and if he finds one he looks for another match until he misses and it moves on to the next Ranger to try. Have them hold on to their cards until the end of the game to see who got the most matches. When they get a match they must read the whole card out loud!

Teaching and having fun at the same time!
